## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

**Claim 1** is rejected under 35 U.S.C. 102(b) as being anticipated by Bendavid et al (US- 4769038). Bendavid discloses using a local anesthetic and a prosthetic device (col.8, lines 8-10) for the repair of a hernia.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Pacey (US- 20020103494) discloses a hernia patch and that the use of a local anesthetic is common.
